Feature

No surprises at the board meeting.

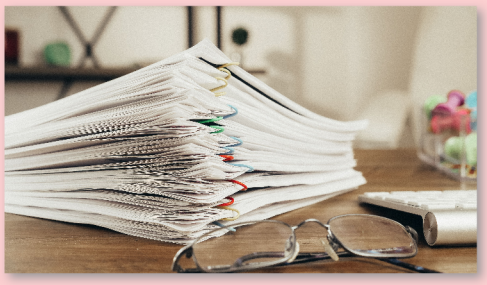
See what's on track and what isn't, at a glance.

The Problem

Before every board meeting or monthly review, someone compiles strategy updates by hand from emails and spreadsheets.

The reports are long, out of date by the time they're read, and it's hard to tell who said what, or when.

Leaders find out about problems too late to course-correct.



What Changes

A live picture of strategy progress, any time

Clear ownership: every update named and time-stamped

Leaders see the key points in minutes, not hours

How it works

What you get	How Epic does it
