

Company Poll

Feature

Ask boldly, respond instantly, and take the pulse of your organisation in real time

Epic's **Company Poll** feature makes it effortless to gather quick input from your entire team—whether you're testing sentiment, making decisions, or sparking engagement. With instant visibility and live results, it's the fastest way to take the pulse of your organisation.

Polls appear directly on each user's home page, prompting participation without emails or extra clicks. It's feedback made frictionless.

Key Functions

- **Easy Setup by Administrators:** Create a poll with a question and multiple-choice answers in minutes. Choose whether responses are anonymous or named.
- **Instant Visibility:** Once activated, the poll pops up on every user's home screen—ensuring maximum reach and minimal delay.
- **Live Results Dashboard:** View responses in real time, with visual summaries like pie charts and bar graphs to track sentiment and trends.
- **Flexible Closure & Reporting:** Administrators can close the poll at any time and instantly access a full report—ideal for leadership reviews or team updates.
- **No Login Required for Feedback:** Optional public link access allows broader participation beyond registered users—perfect for events or external teams.
