

# Participation Points Lucky Draw

## Feature

Reward engagement, spark energy, and celebrate productivity—one spin at a time

Consistent and meaningful use of Epic directly contributes to increased productivity, improved outcomes, and a more engaged workforce. To reinforce and reward this behaviour, organisations can introduce Participation Points as the foundation for a dynamic and inclusive Lucky Draw sweepstake—transforming everyday platform activity into moments of celebration, recognition, and fun.

### Recognition through Participation Points

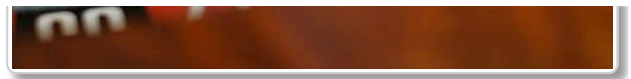

Epic's **Participation Points Lucky Draw** turns everyday engagement into a chance to win big (or at least bragging rights). It's a fun, fair, and fabulous way to reward staff for showing up, logging in, and getting things done—while keeping the energy high and the strategy alive.

### The Lucky Draw

Whether you're chasing prizes or just enjoying the thrill of the spin, this feature adds a dash of excitement to your weekly rhythm.

## Key Functions

- **Earn Points by Participating:** Log in, update progress, set your weekly commitments—each action earns you Participation Points. The more you engage, the more points you rack up.
- **Points Become Tickets:** Every 5 points = 1 ticket into the Lucky Draw. So yes, even one good week could land you a prize!
- **Spin the Wheel of Fortune:** Epic’s built-in “spin the wheel” feature randomly selects winners based on ticket count. It’s fair, transparent, and surprisingly thrilling.
- **Prizes & Applause:** Admins set the prize list and competition dates. Winners’ names (and photos!) are displayed on the big screen—cue the cheers, high-fives, and maybe a little confetti.
- **Leaderboard & History:** Staff can track their points week by week, see how they’re stacking up, and plan their next move. It’s like fantasy football, but for productivity.
